THE MAYANS

All material, discourses, lectures, illustrations, lessons, scientific dissertations and letters of transmittal appearing under this Official Emblem are protected by copyright. They may not be quoted except by official and written permission of The Mayans. They are not for sale but are prepared for the private use of Members of our Order. The recipient of this manuscript agrees by acceptance to hold it Private as the property of The Mayans to be delivered up to the Order upon demand. All rights in the material appearing beneath this cover are reserved by The Mayans, including the privilege of translations into other languages.

VADE MECUM, VOLVENTIBUS ANNIS

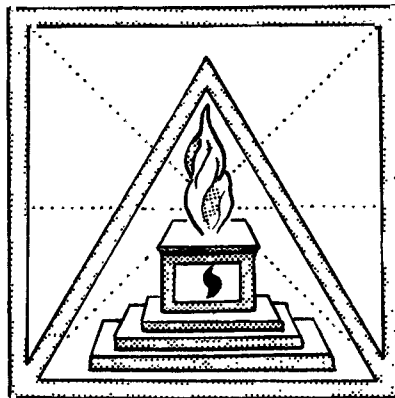

THE MAYANS
SAN ANTONIO,
TEXAS

Degree 4 - 5

Number 36

Copyright 1939 by The Mayans

TO
MEMBERS
OF
THE

4th and 5th Degrees in the

Mayan Ministry

Beloved Companion:

WE SEND GREETINGS TO YOU IN  .

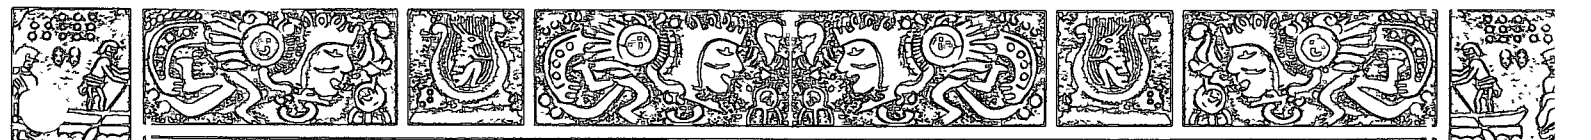

You, upon whom the future of Mayanry depends and to whom countless numbers of people throughout the land are turning with the Light of New Hope shining in their eyes, have indeed a Glorious Privilege ... The privilege of not only kindling NEW HOPE but of bringing to them NEW UNDERSTANDING, NEW WISDOM and the Fulfillment of that HOPE!

For it is given unto YOU to bring again unto the world the Gift of Healing Body and Soul through the Power of God in Man!

For this purpose you study to become masters of the Revelation Principles.

Your studies must enable you not only to be able to use it but to understand it as well.

You must not only be able to manifest it in your own life but in the lives of others. To do so, you should possess deep understanding yourself.

One of the things that sometimes puzzles those new in the Ministry is the need for "Affirmation". "Why are affirmations necessary?" is a question sometimes asked.

The answer is, as your previous lessons should have shown you, that they are not "necessary". They are not essential to obtaining results, but their use involves a principle which makes obtaining results easier. For many, they speed results. For all, they are a great help.

- 0 -

You have learned in the  degrees, the basis of the principle involved. This was purposely gone into in great detail and, no doubt, you have long before now obtained results through it. In previous lessons instructions in the principles of the Revelation Secret were given that work even for the irreligious.

THIS PRINCIPLE IS ONE OF GOD'S LAWS, AND HE DOES NOT PRODUCE A LAW ONLY TO SET IT ASIDE.

His Laws work! They ALWAYS WORK! They work whether the user is a Christian or an infidel - and they work most surely and most certainly!

- 0 -

You have learned something of the nature of Brain and Mind, both conscious and sub-conscious. Now, as both Christian and non-Christian possess both brain and mind, they both may use the principle. All that is necessary is to use the principle in sincere Faith.

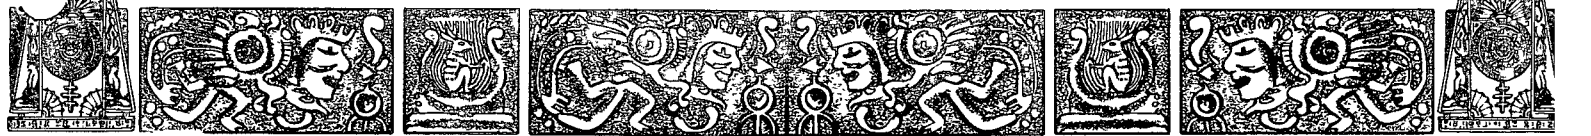

The Faith may not always be of the sort of which we are aware, but it must be present for the principle to work; and the desire must be impressed upon the sub-consciousness. Because of this, affirmations are desirable.

They are Positive statements which one need only repeat many times without doubting to find them manifesting.

"Faith-healers" --- the world has called them.

Yes, faith-healing is an easy term to use, but as all commonly used terms come in time to be meaningless, we prefer not to use this expression. Affirmations are expressions of POSITIVE FAITH. They need only be used without doubting -- used many times -- and "they work".

They are like lessons. What must we do to learn a lesson of any

kind? Do we not have to repeat it over and over, until we have learned it "by heart"? Repeating it over and over engraves an affirmation, not only upon the sub-conscious mind, but also upon the physical brain and upon the CHARACTER, that most imperishable part of our eternal soul.

That is why we use affirmations.

That is why you, of the Mayan Ministry, are instructed to cause others to use them.

Affirmations work even for those who possess no Understanding, but only Belief. Therefore, you who possess Understanding AND Belief have at hand the means and the power to help all of humanity you meet to help themselves, --- through God's most beneficent Law ...

- 0 -

THE GREAT STUMBLING BLOCK TO RESULTS IS SUB-CONSCIOUS DOUBTING. Almost everyone has heard the words, "Faith-healer", spoken half-sneeringly or with a humorous twisting of the mouth by some thoughtless person who thinks doubtfully. If you meet such a person - and unfortunately there are many - know that that which you possess is THOUGHT OUT; it is PROVED and is not subject to doubt!

Such a person as described is a living, walking contradiction. His very sureness is the result of doubt. He would be unable to take a step, to make a living, to exist even, if the Revelation Principle were not a Law.

For, in spite of his doubting, he does most things by Faith! He is unaware of the faith that he has, it is true, and most of his "beliefs" are faith in reverse. All of his "thinking" is without depth, without any more than surface thinking.

He has eyes, but he sees not - ears, but he hears not.

IT IS A FACT:

that almost all of the world's greatest men are those who possess a ready awareness of the Power of Faith and a recognition of Divinity!

IT IS A FACT:

that all of the world's worst men are the thoughtless, the faithless and the self-centered!

THE 5TH DIMENSION

There is no quarrel with religion among the great physicists, the great scientists, the great philosophers. Oh, there are occasional bickerings about sects or creeds or tenets, but these we find, sad to say, among religionists too.

There is all too often a great difference between "Church" and "Religion".

But it is inspiring to talk of God with great men like Michaelson and Einstein.

Michaelson, whose contributions to the physics of Light stamp him as one of the world's great men.

And Albert Einstein, whose contributions to the field of mathematics will provide the world with the means for greatest advancement when ordinary men of science can catch up with him.

Einstein's recent discovery of his 5th Dimensional Theory, when made public, produced as great a furor as did his 4th Dimensional "Relativity" theory a few years back. We who are Mayans may be proud to know that the new 5th Dimension Theory gives scientific backing to our own tenets of the real nature of matter.

Before me as I write these words are a letter and a press-clipping of the work of the great savant, which tell the story of the conformity of his discoveries with Mayan teachings.

I reproduce the clipping:

"SINGLE LAW TO EXPLAIN ALL PHENOMENA OF THE UNIVERSE IS FOUND"

"A new solution of one of the great mysteries of science, a single law to explain all the phenomena of the material Universe, has been found by Professor Albert Einstein.

"He announced this recently in an interview with his friend, L. E. Levick, New York newspaperman and member of the National Association of Science Writers.

"Einstein calls the mystery -- the unified field theory. It aims to bring together gravitation, magnetism and matter under one unifying mathematical concept.

"For four years, since leaving Germany as a voluntary exile, he has been working on this problem at the Institute for Advanced Study, which is endowed by the Bamberger family of Newark, N. J., and housed in Princeton University. The study began twenty years ago, when relativity was finished and before it is complete Einstein hopes to be an American citizen.

"He does not make public the nature of his announced discovery. But its main outlines are known to science generally.

"The mathematical constructions for a unified field theory devised by me heretofore,' he said, 'have not stood the test of experience. A year ago I discovered a new solution and I am now engaged with two collaborators in developing the results to a point where they could be checked with experimental facts.'

"Einstein a year ago, with Leopold Infeld, published a book which pointed out that scientists have believed of late in two realities in the material universe. These, he said, were matter and field. Field means the fields of gravitation, magnetism and electricity.

"In the book he asserted that field is the only reality left. Support for this subordination of matter is found in physical experiments indicating that solid matter may be only radiation in a changed form; that all matter is made of particles which seem to be nothing but bits of electricity, and a few experiments where rays have been detected changing themselves from radiation into solid particles.

"In the attempt to unify these fields which seem to permeate everywhere, gravitation has been a chief missing link. It has no yet measurable waves like electricity; it does not come and go like magnetism. Another gap is the link between relativity and quantum theory. The latter shows that immaterial things like energy and light are really made up of separate particles.

"Science has been compelled to accept as a fact an incredible situation in which immaterial waves are sometimes particles and where apparently real particles are sometimes waves. Experiments proved this contradiction. A unified theory might explain it.

"If the law Einstein seeks is found it may also supply a better understanding of the link between mind and matter. For it deals with a non-material world as much as with the material.

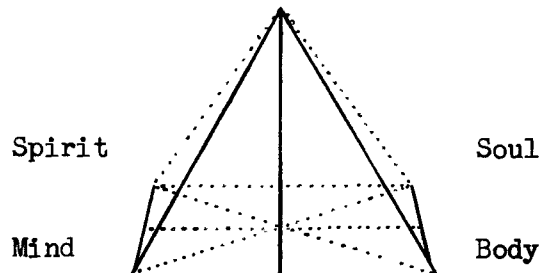

"Einstein was asked whether he believed that a Supreme Court of Wisdom, which was suggested during the Harvard tercentenary two years ago, could serve to smooth the world's troubles. He replied that if the organization difficulties could be overcome it should function as a conscience for mankind.

"Such a body', he said, 'could, by expression of its views, exert a highly beneficial and, in course of time, even a standard-setting influence on the development of the social and economic affairs of the world.'"

The link between Mind and Matter HAS been found ... We leave the mathematics of it to our great scientific Companion, Einstein, but the link itself is well symbolized in the great Mayan Emblem of Being, whose 5th Point is ---

INTELLECT

All the movements of the electro-magnetic particles composing the atom are shown by it as well as the complex orbits of the stars of heaven. All the parts of man's being, and all of his nature can be read in this symbol.

Three of its dimensions are MIND, SPIRIT and SOUL; the invisible substance made visible in Physical Life, its fourth part. INTELLECT, the developed product of ALL of these four parts, or their extension, is, in Mayanry at least, The Fifth Dimension.

Physical Life, in its dimensions of Length, Thickness and Height, exists in Time and bounds its sphere or field of influence by INTELLECT. Thus, for Mayans, the Fifth Dimension is not only known, but named! Its symbol, even in ancient days was, and is, THE PYRAMID.

How may we connect with this 5th Dimensional World?

Through Intellect - to God, of course!

We need no mathematics to materialize anything we need, be it health or material possessions. We need only apply The Law to bring into being, into our possession, ANYTHING that we need!

Mind is the master substance; Soul, the shaping mould; and Spirit, the energizing principle; INTELLECT, the "I AM" consciousness and GOD, THE ALL.

Reflect Thou HIS Bright Illumination,

THE MAYANS

AFFIRMATION

(It is suggested that you memorize this Affirmation and repeat it often.)

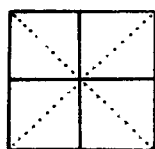

There is no matter. All is Infinite Mind and its Infinite Manifestation, for God is All. I am part of All, united by my conscious Thought and my expanding, growing Intellect with Infinite Divine Love and Wisdom. I am Guarded, Guided and Provided for. By the Law of Being, I receive back that which I give forth of Substance, of Love, of Wisdom, of Power and of Perfection in both Mind and Body, for this is my own Father's Law.

- 0 -

"Then let your secret thoughts be fair;
They have a vital part, and share
In shaping worlds and moulding fate.
God's system is so intricate."

EXPLANATORY STUDY NOTE

8 lines, representing
8 Functions

The Vectors of Being

5 Points, representing
5 higher Functions

On his sixtieth birthday, Professor Albert Einstein announced his entrance into the fifth dimension in his mathematical works in a theory which would explain all physical happenings in one broad concept.

Einstein, the man who puzzles millions of people with his fourth dimensional theory of Relativity, understandable to only a few living men, has gone one step farther.

Einstein's new work, while similar to the version of Professor Kalusa, differs in this: that in his fifth dimensional theory, space is closed along a vector indicating the fifth coordinate.

Nevertheless, there is no contradiction with the empirical four-dimensional character of physical space.

In his new theory, Einstein admits the new five-dimensional world has its own paradoxes, as did his previous theories. For instance, a single point, P, in physical space is represented by an infinity of points in the five-dimensional space.

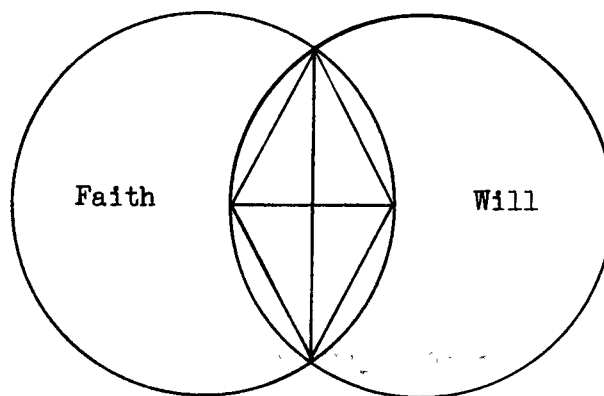

Ordinary space, as most people understand it, consists of the three dimensions of Euclidean space which we call height, breadth and thickness, in speaking about an object like a cube. To these is linked Time as a fourth dimension in the relativity theories.

As might well be expected, the new mathematical theory is enormously complex. As an example, Einstein says it is necessary to introduce a special coordinate system in which space is described by 14 different functions.

Our Mayan Symbol of Being, when extended to its 5th Point, symbolizing INTELLECT, describes only 13 functions and we believe that with this it is complete in itself. A 14th function could be added to the symbol as a conception of its motion.

Mayans may indeed be appreciative of this new scientific perception of our secret teachings given to all our Members long before Professor Einstein formulated his new theory.

(Draw this symbol. It illustrates the mechanics of creating by Mind. Draw the two circles first, then the cross, then the connecting vectors.)

Dual Forces United in One, Materializing The Pyramid In The Womb of Creation.
